

# Tea & Garden Tour

SATURDAY, OCTOBER 5 • 2-4PM

## Tenison Park Pollinator Garden

Mission Statement: To protect and promote Blackland Prairie pollinators by establishing a certified Monarch Butterfly Way Station and diversified native plant garden in an under-utilized, non-irrigated urban park.

### Garden tour begins at 2:15

Randy Johnson, our native plant guru, will give detailed descriptions of the plants we use to attract native pollinators such as Monarch butterflies, native bees, hummingbirds, and dragonflies.

As an added bonus, Randy will have native plants available for purchase to start or enlarge your own pollinator garden. \$10/gallon (cash only)

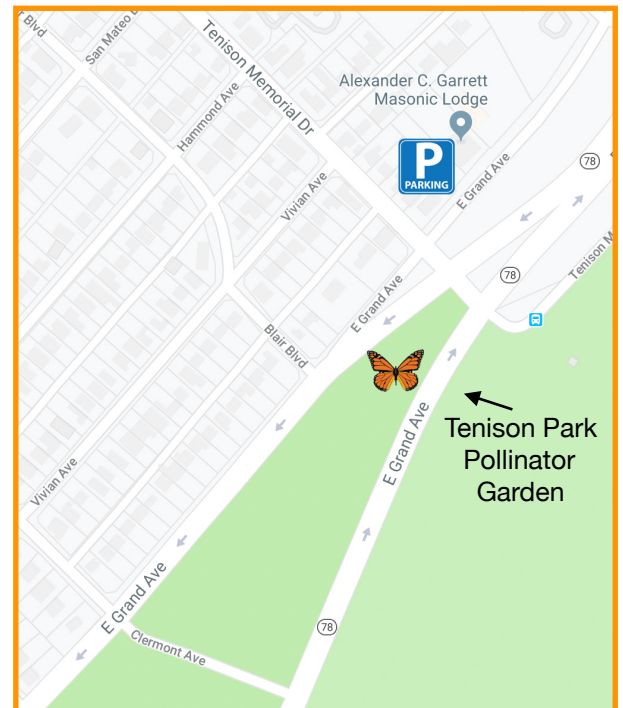

### Monarch Tagging

*October is prime time to observe migrating Monarch butterflies.*

We will be tagging those who visit our garden as part of ongoing research for [MonarchWatch.org](http://MonarchWatch.org).

### Other events

- Face Painting
- Native Plant Sale
- Refreshments
- Native Seed Packets

**The garden is maintained solely by volunteers, grants, and donations**

Tenison Park Pollinator Garden is sponsored by Hollywood/Santa Monica Neighborhood Association
